

PARTS HANDLING SOLUTIONS FROM

LaRosTM

Part / Runner Separators

LaRos started in business separating parts from runners - we have several separator types for many different applications. Give us your toughest situation!

E-525 Series (Under Press)
Conveyor with E-400 Series
Finger Separator.

E-400 & E-540 Series Finger Separator

THE ORIGINAL FINGER SEPARATOR, with exclusive standard "Finger" types, patented 3-roller design, exclusive extended separation zone, and unique agitating option provide maximum separating efficiency.

STANDARD FEATURES:

- Totally enclosed 10 gauge steel framework.
- No exposed motor or drive components.
- Stainless steel parts contact surfaces.
- Crowned pulleys for positive belt tracking.
- Slave driven where possible - 115VAC self-powered where required.

SEND US YOUR PARTS AND RUNNERS
FOR A CONFIDENTIAL ANALYSIS!

WE NOT ONLY SEPARATE
WITH GUARANTEED RESULTS,
BUT WE ALSO DESIGN TO YOUR
PARTS AND RUNNER
DISCHARGE OBJECTIVES.

E-525 Series Incline Conveyor
with E-400 Series Finger Separator
(feeding gaylords).
